

## Advanced Hepatology Training posts 2025 (N Ireland TBA)

The ATPs below are approved for advanced training in Hepatology and include experience in a transplant (level 3) centre. These posts will form the ST6 year (primarily) for trainees branching into hepatology as part of the 2022 gastroenterology curriculum. The allocation process will now be region-based but there is flexibility if a trainee is happy to move regions. There is also flexibility for the 6 month/6 month posts in terms of whether one or both are filled from the same region (will depend on trainee interest from the two regions involved). All trainees interested in hepatology ATPs will be asked to complete the specific trainee information form. Of note the ATP year is not mandatory for NTN(A) hepatology trainees (typically ACL), who have had appropriate hepatology clinical experience, but they should otherwise make up minimum time in a transplant centre if not based in one.

Lead centre	Transplant unit	Duration in transplant unit (m)	Lead Centre Contact	Email
Birmingham	Birmingham	12	Abhi Chauhan	Abhishek.chauhan@uhb.nhs.uk
Brighton (x 2 posts)	Kings	6	Fergus Chedgy	Ferguschedgy@nhs.net Debbie.shawcross@kcl.ac.uk
