

| Day       | AM                                            | PM                             |
|-----------|-----------------------------------------------|--------------------------------|
| Monday    | EUS/ERCP                                      | EUS/ERCP                       |
| Tuesday   | EUS/ERCP                                      | ERCP/ ERCP MDT alternate weeks |
| Wednesday | HPB stent removal list or ERCP consent clinic | Audit/ research/ admin         |
| Thursday  | Pancreatic MDT                                | EUS/ERCP                       |
| Friday    | Pancreas clinic                               | EUS/ERCP                       |

We are inviting applications for the position of Senior Fellow in Pancreaticobiliary Medicine at The Leeds Teaching Hospitals NHS Trust. The post holder will be able to pursue further training in all aspects of benign and malignant PB medicine and participate in dedicated clinics and regional MDT meetings. Training in ERCP and/or EUS and advanced pancreaticobiliary endoscopic techniques will be delivered in at least 5-6 dedicated lists per week. It is expected that applicants will have commenced training in ERCP but prior EUS is not essential. This post will be supervised by Dr Matthew Huggett, Dr Bharat Paranandi, Dr Simon Everett and Dr Aaron On and is available from September 2025 until September 2026.

Advanced pancreaticobiliary endoscopy techniques include management of hilar strictures, post-transplant ERCP, SpyGlass DS cholangioscopy, interventional EUS including drainage of pancreatic fluid collections, EUS-guided biliary drainage, EDGE/ EDGI and EUS-gastro-jejunostomy. The unit performs approximately 800 ERCPs a year and 600 EUS.

This post will be offered for a fixed term of one year and is not accredited for training. In addition, there will be a requirement to provide inpatient ward cover for G(I)M. These duties will involve daily morning ward round duties for 7 consecutive days in a 1:7 rotational basis, still with the opportunity to carry out EUS/ERCP in the afternoons. There will be no additional out of hours on call commitment, and these duties will attract an uplift in salary to consultant equivalent rates of pay.

Candidates must be eligible for registration with the General Medical Council.

Informal enquiries are welcome. Please contact Dr Matthew Huggett (matthewhuggett@nhs.net).
